Cost structure

WHY :

The benefits to be affiliated with GFSA are numerous. With so many misleading claims by players throughout the meat value chain, GFSA's landmark assures consumers of what they are buying. This allows affiliates to give assurance to their market that they have the highest standards of transparency, traceability and confidence. It also assures customers that the establishment utilises best practices and the fair trade principles which is the cornerstone of GFSA.

R800 Annual Affiliation Fee

On Completion of the application process

The Application will be approved by GFSA Administration and when successful, a certificate will be issued
